

Can you perform for the executive team, sales staff, and administrative & manufacturing employees as the IT Network Leader and be crowned Data Champion of the company?

ABOUT ROMO:

- Executive team looks for ways to say “YES” instead of “NO”
- An opportunity to be viewed by all levels of the company as the IT leader
- Analyzing data in new and creative ways that contribute to achieving desired gross profit levels on a consistent basis
- An environment where finding ways to minimize transactional work or production time through use of technology is strongly encouraged
- Working in a goal oriented company that wants you to try new things in order to achieve the end goal
- A profitable company that needs you to be a key piece to assist in creating explosive growth

ENOUGH ABOUT US...HERE'S THE PROFILE OF OUR IDEAL CANDIDATE:

- Have an Associates Degree in IT or a related field or 3+ years experience of network administration
- Possess excellent Crystal report/OpenEdge database or other software report writing and data analysis skills
- Enjoy interacting with senior management to develop and analyze reports that significantly impact business operations
- Possess customer friendly skills for daily interaction with end users and daily administration of Win servers, Citrix servers, HP Nimble Storage, MS Exchange/Office 365, Virtualized servers, Enterprise software, Firewall, Anti-virus, and MS applications
- Have a track record of project management & timely project execution
- Be detail-oriented for documentation of system upgrades/software installations/network administration
- Be a self-starter that is proactive in handling tasks/problems & works independently

Please send resume and letter convincing us you're the person who fits our profile to:
